

# DualBlock

The Ultimate Heavy  
Duty Porous Paver

## Product Dimensions:

80 x 40 x 6cm

32 chambers (size 8 x 8cm)

1m<sup>2</sup> = 3.125 pieces

**DualBlock is a unique permeable paving system that combines strength with versatility. Made from recycled HDPE, the interlocking pavers can be filled with either gravel or grass providing a robust SuDs source control solution.**

## Features:

- Designed for use with HGV Traffic
- High shear strength reduces limitations whilst accelerating, braking and turning
- Easy to install and maintain
- Reduces sub base depths
- Cost effective alternative to concrete and tarmac surfaces
- Textured surface for improved grip
- High water permeability
- Sympathetic to the natural environment

## Applications:

- HGV and Coach parking
- Lay-bys and verge reinforcement
- Intensively used car parks
- Service yards and Industrial Estates
- Access roads for emergency vehicles
- Farm and rural roads
- Private roads
- Hard standing areas for Motorhomes
- Light aircraft apron
